

co-ordinated wall protection strip dual-coloured design “Bicolor Design”

wallprotection™ WP

Synthetic resin wall protection strip, through-coloured to hide the effects of wear and damage. The smooth surface makes it easy to clean and more hygienic than traditional skirtings.

Available in 16 colours and a range of dual-coloured options, the WP wall protection strip can be co-ordinated with the other profiles in the wall protection range - corner protectors (WA) and skirting (WB).

Together with an aesthetic value the dual-colour effect with a darker colour in the central part improves its resistance to trolleys and stretchers passage.

Illustrated scale dimension 1:1,5
